K2 TABLE

by Friis & Moltke

MIKKEL BAHR, FRIIS & MOLTKE

Friis & Moltke is a modern design studio, which was founded in 1954 and has been among the leading Danish architectural firms .

Mikke Bahr is a partner of Friis & Moltke, and responsible for the design department.

The studios results are created through cooperation , both with clients and partners , and internally at design studios , with a sensible balance between function, aesthetics and economy - added a good dose of originality.

Mikkel Bahr has been an architect for more than 20 years, having worked with the largest danish architects.

DESIGN:

Friis & Moltke (2011)

DESCRIPTION:

The unique and designprotected electrical height-adjustable workdesk, K2 Table, is without comparison it's own - in character and style. Now there's finally an alternative to the regular T-base workdesks, which basically all look the same...

The construction of the height-adjustable workdesk K2 Table is fundamentally based on the connecting unit, which also works as cable tray. The strong connecting unit makes the height-adjustable workdesk K2 Table one of the most stable height-adjustable workdesks in the market...

The height adjustable device (Linak) is mounted in an angle, and mounted with a supporting leg. The angled height adjustable leg results in a horizontal displacement of 12cm from bottom to top.

Patent pending.

TECHNICAL SPECIFICATIONS:

Base: Black or white

Top: Black linoleum or white laminate

MEASUREMENTS:

60/70x120cm

60/70/80x140cm

80x160cm
