TR41 Pendant

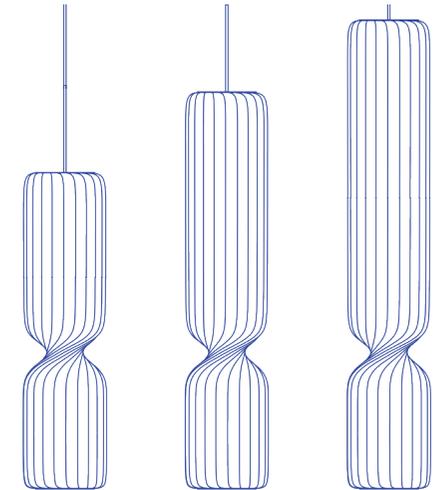

Description

The TR41 series has strong references to the design brand's popular slatted lamps, TR7 and TR37, but the new design offers a new look that creates a special contrast to the soft slats. Here, the well-known cylinder is tightened up with a narrowing at the top, bottom and centre, which gives the lamp a special hourglass shape. However, the narrowing in the middle is in the lower part of the lamp.

The TR41 series consists of both floor lamps and pendants in three sizes and adds a special Nordic expression to the home with its sculptural, asymmetrical shape of slats.

The TR41 is also available as a floor lamp.
