

# MAGIS

Troy by Marcel Wanders Studio

# Marcel Wanders Studio

## Profile:

Marcel Wanders studio is a leading product and interior design studio located in the creative capital of Amsterdam. The studio has over 1,900+ iconic product and interior design experiences all around the globe for private clients and premium brands such as Magis, Alessi, Baccarat, Bisazza, Christofle, Kosé Corporation/ Decorté, Flos, KLM, Hyatt Hotels Corporation, LH&E Group, Louis Vuitton, Miramar Group, Morgans Hotel Group, Puma among scores of others.

Under Marcel Wanders and Gabriele Chiave's creative leadership and direction, Marcel Wanders studio employs 52 design and communication experts. Regarded by many as an anomaly in the design world, Marcel Wanders studio has made its mission to "create an environment of love, live with passion and make our most exciting dreams come true."

# Design and

Troy is a concept of remarkable simplicity and comfort that gives shape to practically endless possible variations, playing on the use of different materials, combinations and seat types. This vast and various assortment with over two thousand possible combinations of materials (from plywood to polycarbonate to polypropylene, to upholstered, etc.), structures (in steel tube or steel rod, with legs, on wheels, on star base, etc., also available with arms), and colours offers solutions for every possible need for both the home and the contract sector. This collection was launched in 2010 and has grown ever since.

Now the collection includes different typologies of chairs, stools, a low chair and a bench for public spaces.

All products in the Troy collection come from an idea of Marcel Wanders Studio. The creations of this studio are always interesting, innovative and at times even provocative. The designs combine fine materials and innovative techniques.

# Engineering

“ Troy is a concept of remarkable simplicity and comfort that

gives shape to practically endless possible variations ”

## CHAIRS

Frame in steel tube, chromed or painted in polyester powder or in steel rod (gold or copper coated). Seat in beech plywood, in polycarbonate, in polypropylene or in polypropylene covered in fabric (Kvadrat "Divina MD", "Divina Melange"). Also available in beech plywood or in polypropylene with front side covered in fabric (Kvadrat "Divina MD", "Divina Melange", "Steelcut Trio" or "Steelcut 2") or in leather. Versions for outdoor and with arms also available.

## Wooden legs

Legs in solid beech, natural or painted. Joining element in die-cast aluminium, sanded or painted. Seat in beech plywood, in polycarbonate, in polypropylene or in polypropylene covered in fabric (Kvadrat "Divina MD", "Divina Melange"). Also available in beech plywood or in polypropylene with front side covered in fabric (Kvadrat "Divina MD", "Divina Melange", "Steelcut Trio" or "Steelcut 2") or in leather.

## STOOLS

Frame in steel tube, chromed or painted in polyester powder or in steel rod (gold or copper coated). Seat in beech plywood, in polypropylene or in polypropylene covered in fabric (Kvadrat "Divina MD", "Divina Melange"). Also available in beech plywood or in polypropylene with front side covered in fabric (Kvadrat "Divina MD", "Divina Melange", "Steelcut Trio" or "Steelcut 2") or in leather. Versions for outdoor and with arms also available.

## LOW CHAIR

Frame in steel rod, gold or copper coated or painted in polyester powder. Cushions in expanded polyurethane with removable cover in fabric (Velvet, Kvadrat "Divina MD", "Divina Melange"). Version with arms also available.

## BENCH

Frame and small table in natural solid beech. Seat in polypropylene.

PRODUCT CARE

FABRIC /

The upholstery is not removable. However, it is highly resistant to dirt and easy to clean. Daily care and immediate stain removal will ensure that your wool upholstery will keep looking good for many years to come. It is normally sufficient to regularly vacuum and air upholstered chair. Never use undiluted cleaning agents, bleaching agents, ammonia or soap intended for hard surfaces. As a general rule, many types of stain can be removed using lukewarm water. For greasy stains, use a dry stain remover. For more insoluble stains (chewing gum, candle wax, etc.), use a plastic bag filled with ice to rub the stain until the substance has become friable. Use a clean flat blunt blade to delicately remove the substance. Be careful when using solvents, because these could dissolve the upholstery material beneath.

Divina MD/ Divina Melange/ Steelcut Trio (Kvadrat):

LEATHER /

Regularly clean using a dry and soft rag. When needed, use products especially formulated for leather. Immediately dry after the treatment. Do not use abrasive sponges as they may leave scratches. Where there was a stain of ink or similar, use only the specific stick that is commonly available on the market. Avoid direct exposure to sunlight or heat sources.

WOOD /

When needed, use ph-balanced liquid soap especially formulated for wood, diluted in water. Do not use abrasive sponges, as they may leave scratches. Avoid using acidic products, solvents and products containing ammonia. Avoid exposure to sunlight as this may permanently discolour the surface.

POLYPROPYLENE / POLYCARBONATE /

We recommend using a soft rag, either dry or wet. When needed, use ph-balanced liquid soap diluted in water. Do not use abrasive sponges, as they may leave scratches. Avoid using acidic products, solvents and products containing ammonia.

WARNING

Do not use different cleaning products from the ones mentioned above. Do not use the product in an improper way. Do not place hot objects on it, sit down on the back, stand on the seat or use the product as a ladder. Once disused, please make sure this product is disposed in an environment-friendly way. For the upholstered versions: treat stains immediately, the longer they remain in the fabric, the harder it is to remove them. Before choosing a cleaning method, always try it out on a concealed part of the chair.

PRODUCT CARE

Regular cleaning is important in order to keep the upholstery textile looking its best and to prolong its life. We recommend that upholstered furniture in commercial environments are cleaned by professionals 2 to 3 times a year. Treat stains immediately, the longer they remain in the fabric, the harder it is to remove them. Before choosing a cleaning method, always try it out on a concealed part of the product. First, scrape off any liquids or hardened residues. Next, vacuum before further cleaning. Non-greasy stains can be removed by gently dabbing with a moist sponge or lint-free cloth. Work in circular motion towards the centre of the stain. Always ensure the textile is fully dry before using the furniture again. Using a hairdryer can help to avoid edge marks, particularly with microfibre fabrics. Be careful when using solvents, because these could dissolve the upholstery material beneath. Covers made from wool cannot be washed but should be dry cleaned. Employing pH-neutral carbon dioxide solutions for cleaning is recommended because this method avoids the use of soap.

WARNING

Do not use different cleaning products from the ones mentioned above. Do not use the product in an improper way. Do not place hot objects on it, sit on the back and/or on the arms, stand on it or use the product as a ladder. Once disused, please make sure this product is disposed in an environment-friendly way.
