C6 COFFEE TABLE

Design: byKATO

C6 COFFEE TABLE – DESIGN ROOTED IN HISTORY

The C6 coffee table has a light and elegant appearance. Its design is based on a revamp of the legendary design icons of the 60s.

The narrow rectangular table top and slim black powder-coated metal frame create a modern contrast. The elegant brass details help accentuate the table's aesthetics.

The coffee table goes well with Andersen's LC1 lounge chairs, creating a cosy and informal corner. It also goes well with Andersen's A2 sofa to create an area for meetings, employee brainstorming, waiting areas or simply for your living room.

PRODUCT HIGHLIGHTS

- Light and elegant look in a Scandinavian style
- Tabletop in oak veneer
- Goes perfectly with the LC1 lounge chair or the Andersen sofa
- For the unformal meeting area, & waiting room - or the living room at your home
