Coffee Waste Black, Coffee Waste Light, Coffee Waste Rust Red: coffee shell waste from BKI's coffee roasting process mixed with post-consumer e-waste.

### Colours

Coffee Waste Black  
Coffee Waste Light  
Coffee Waste Rust Red

## Maintenance guide

Please note that this product is handcrafted and made from natural fibers, and recycled plastic - each piece is unique, and its appearance may vary from item to item.

### Matek™

The Matek™ material is made from a mix of recycled fibre and plastic waste. It offers a strong, durable surface that is easy to clean and requires very little maintenance.

For daily care, it is recommended to dust the surface with a soft cloth. The surface can be cleaned with a soft cloth wrung out in a mild solution of lukewarm water and a universal cleaning detergent. Avoid using abrasive cleaning agents and harsh detergents, as these may damage the surface.

Avoid placing Matek™ furniture in direct sunlight, excessive heat, or humidity over longer periods of time, as this can affect the appearance of the material.

As Matek™ furniture is made from a blend of natural materials, each piece is unique, and its appearance may vary from item to item. A slight change in colour over the years is also to be expected. Matek™ furniture also has a distinct smell when first unpacked, but this will fade after a few days of use.

### Recommended Light Source - **NOT INCLUDED**

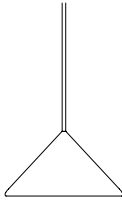

LED GX53  
4,9 W  
480 lm  
2700 K  
CRI Ra 80  
Energy class: F  
Voltage: 220-240V - 50/60Hz

# Installation Guide

---

## Components

1x Pendant

---

## Safety precautions

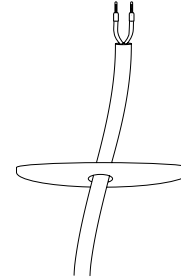

The lamp is intended for indoor use.

Consult a professionally qualified electrician if in any doubt. Before starting the installation, disconnect the power supply by turning off the circuit breaker or by removing the fuse at the power off. Using the light switch is not sufficient to prevent electrical shock.

If the external flexible cable or cord of this luminaire is damaged, it shall be exclusively replaced by the manufacturer or his service agent or a similar qualified person in order to avoid any hazard.

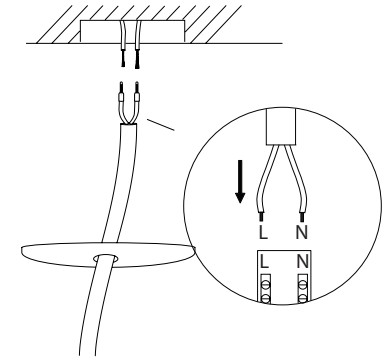

1

Remove any frame or cover at the electric outlet you want to install the lamp into. Mount cover or frame to the cord before installing the lamp.

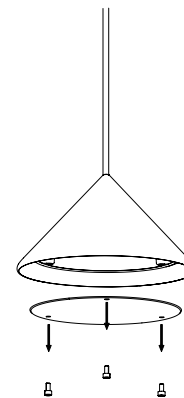

2

Connect the brown wire (L) to L in the electric outlet and the blue wire (N) to N in the electric outlet.

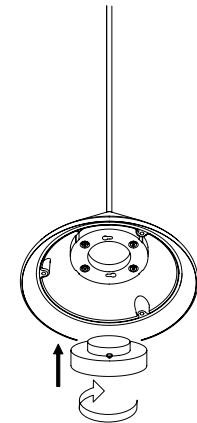

3

To insert the light source, remove the diffuser by unscrewing the three screws.

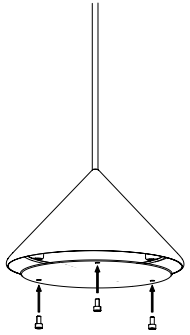

4

Insert the light source and secure it by turning it to the right.

5

Reattach the diffuser. Be careful not to overtighten the screws. The power is now ready to be turned on.

Note: The lamp is dimmable if connected to a light dimmer switch.
