x 2

Assembling the first straight section:

Place needed components on the floor and fasten legs to bars with screws.

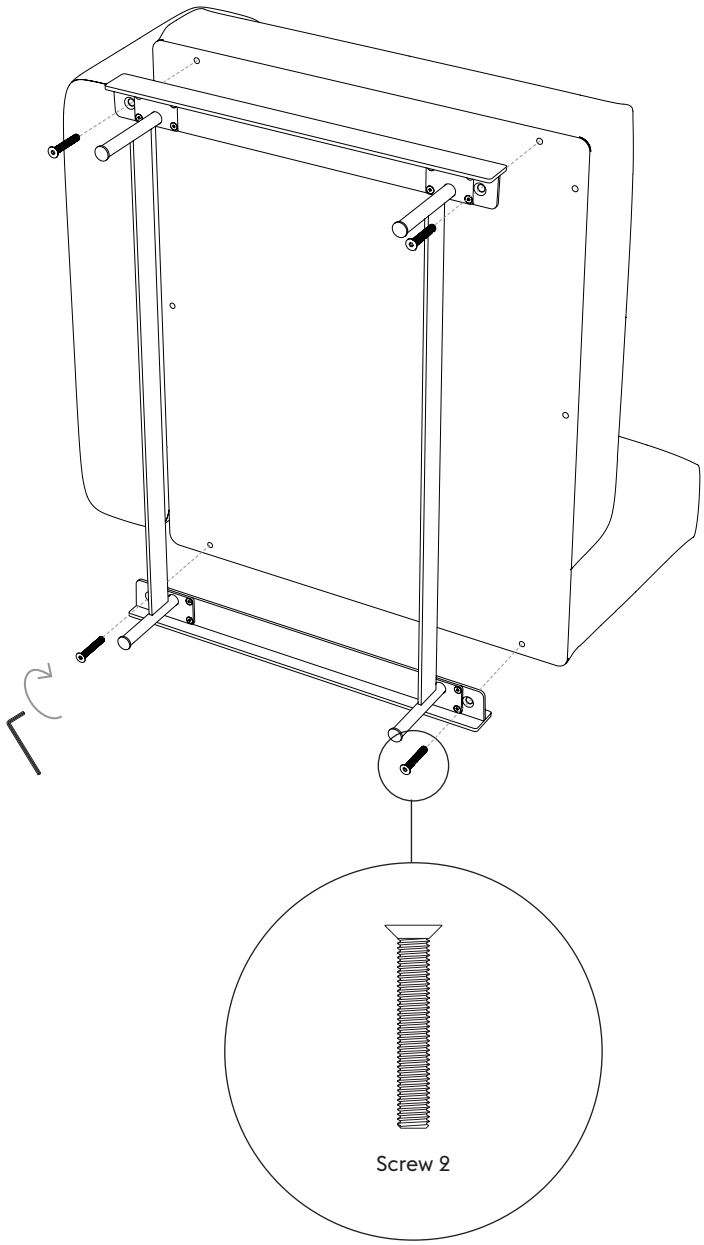

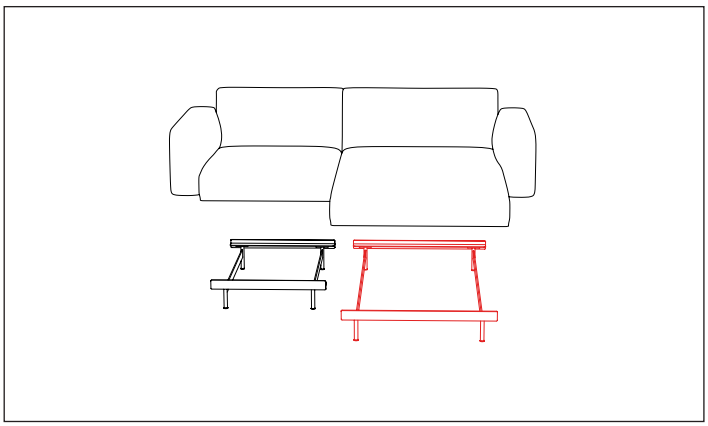

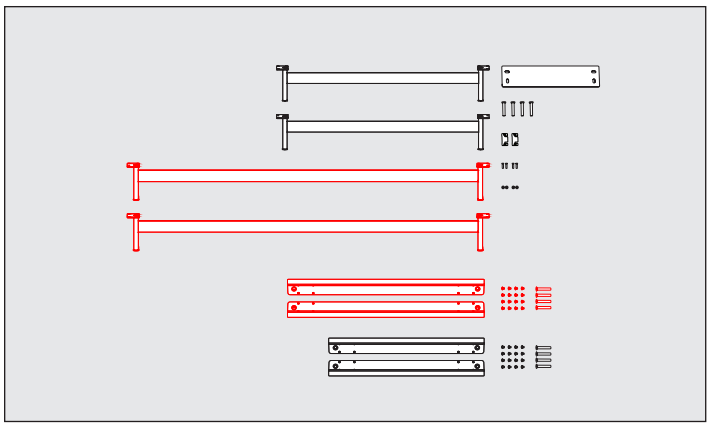

Starting from one side/end of the frame section, attach the individual modules loosely without leaving any gap in between.

When all modules are attached, secure the modules by tightening the screws.

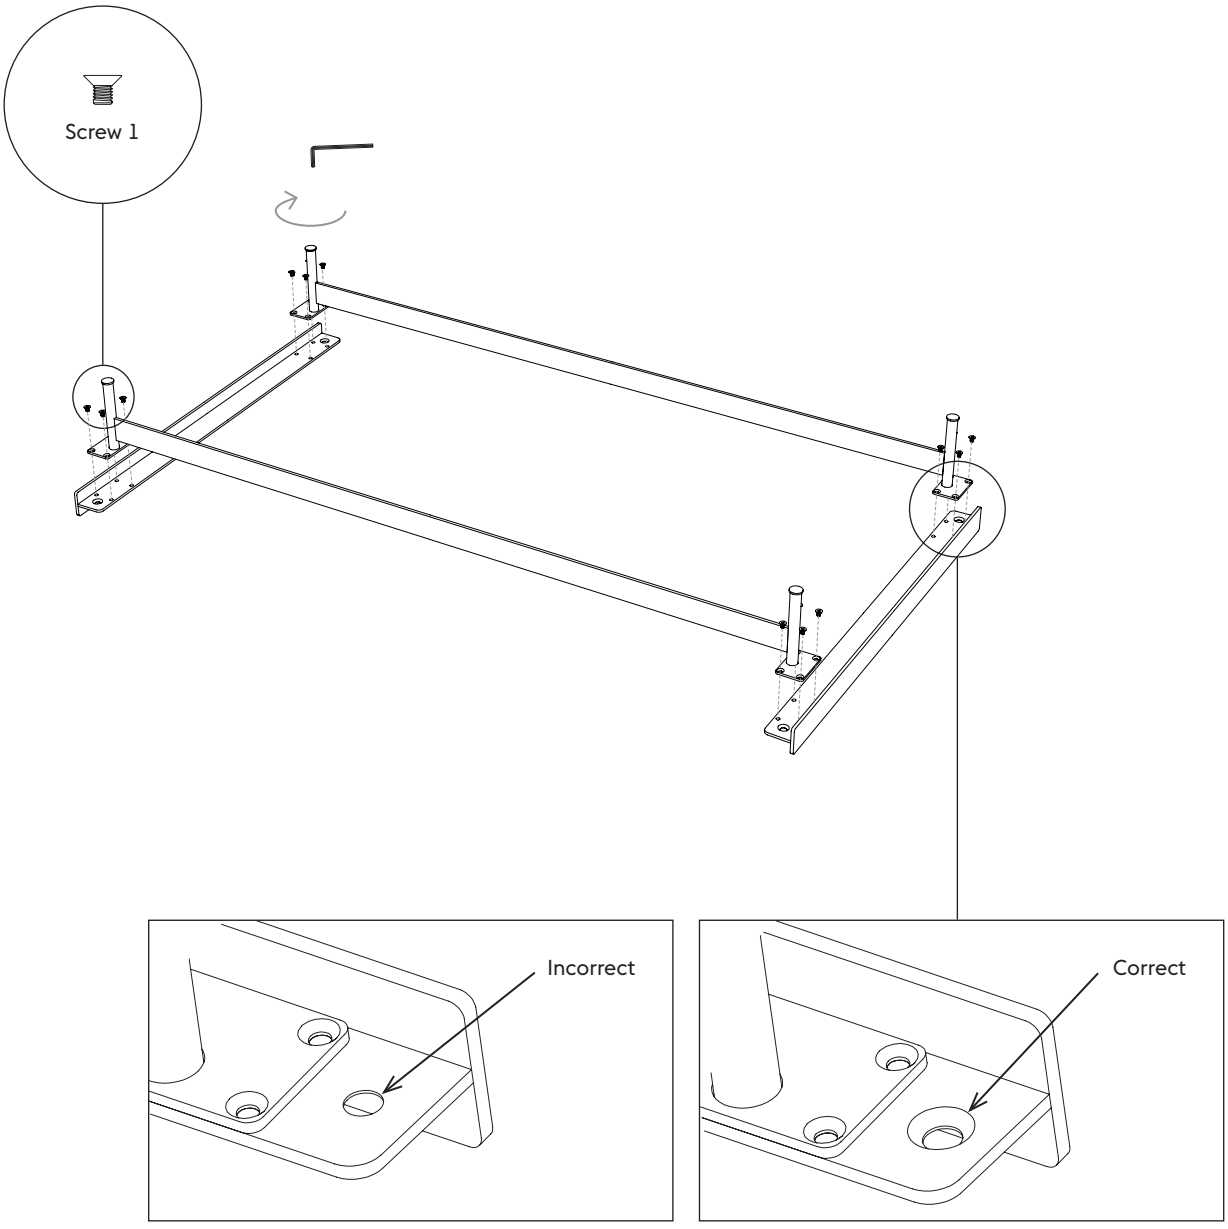

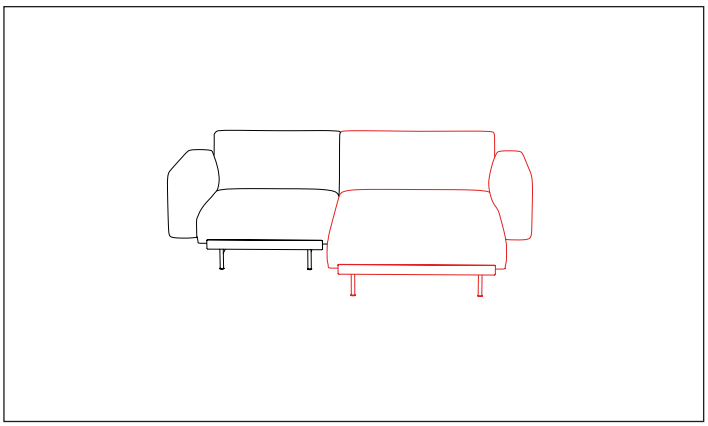

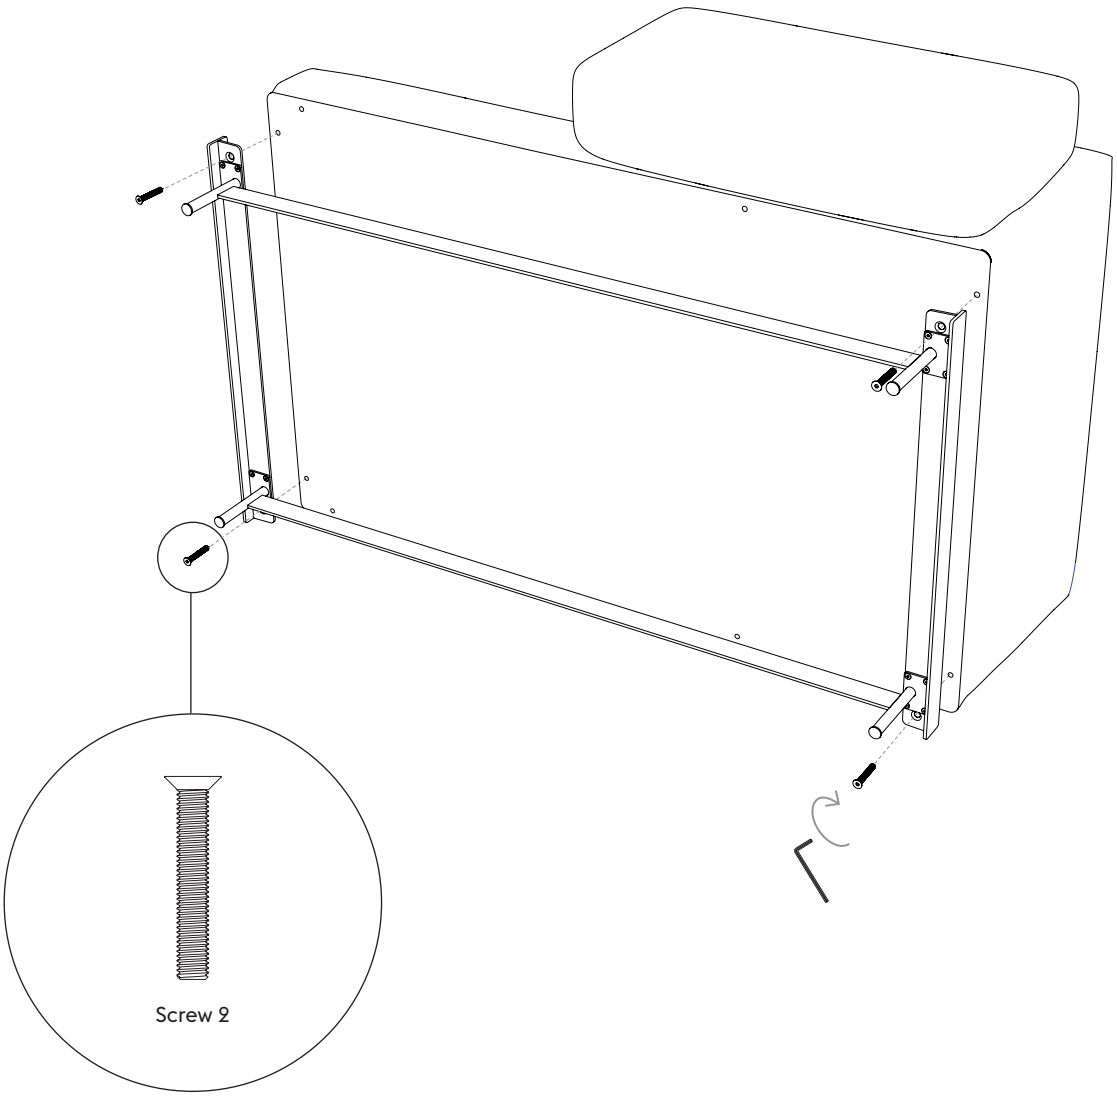

Assembling the second straight section:

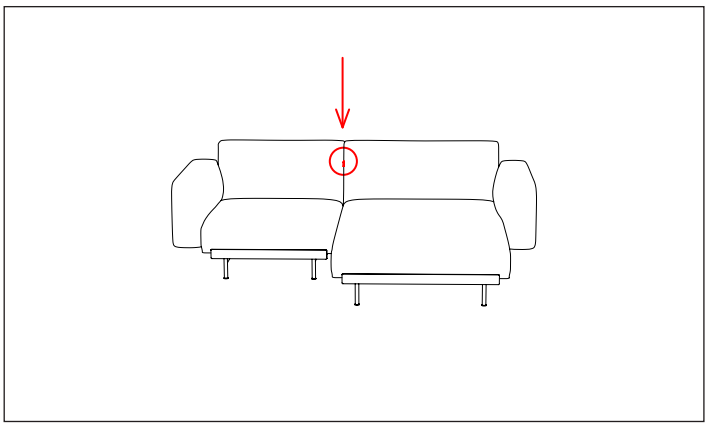

Assemble the second straight frame section as before, and attach the multiple modules to the assembled frame section.

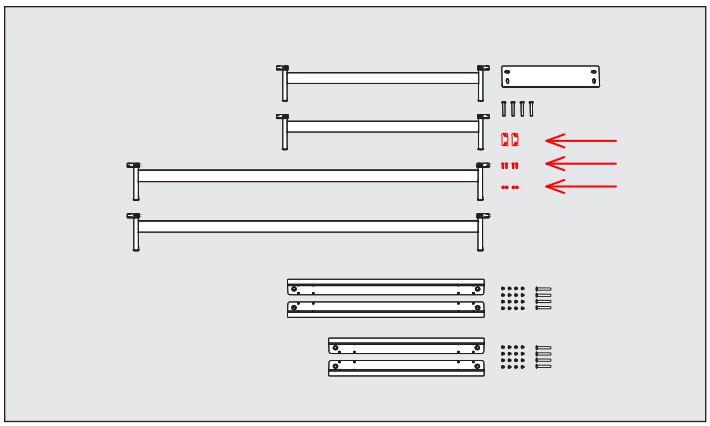

6

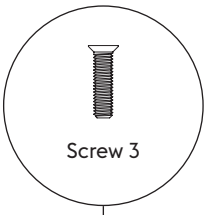

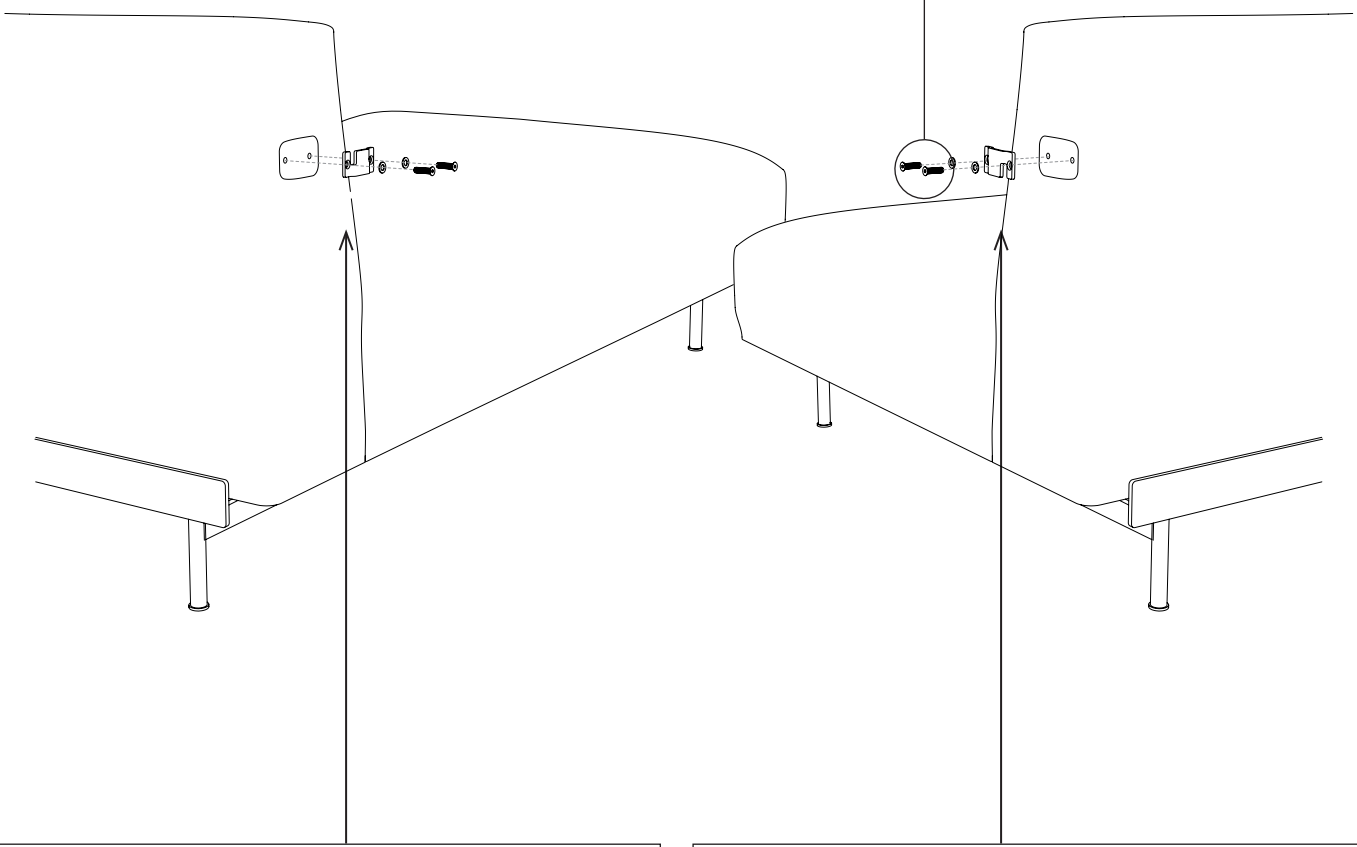

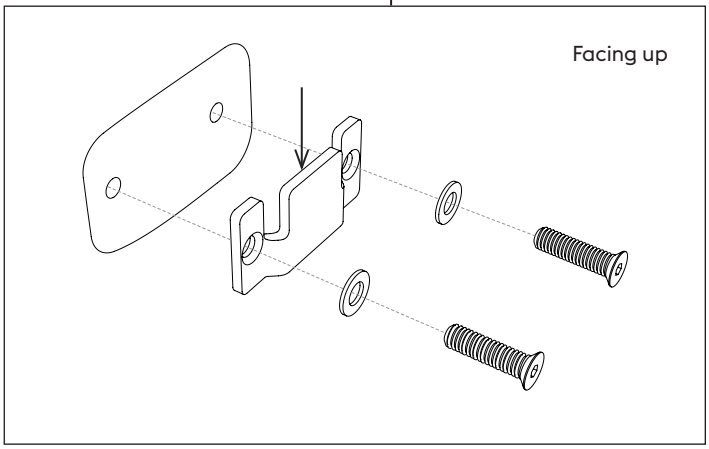

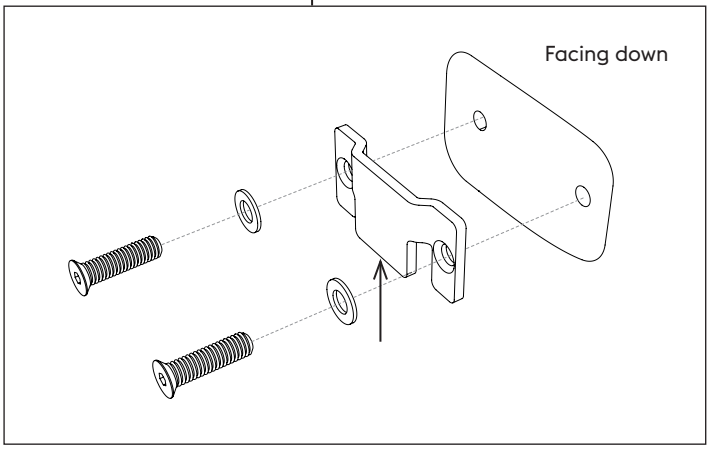

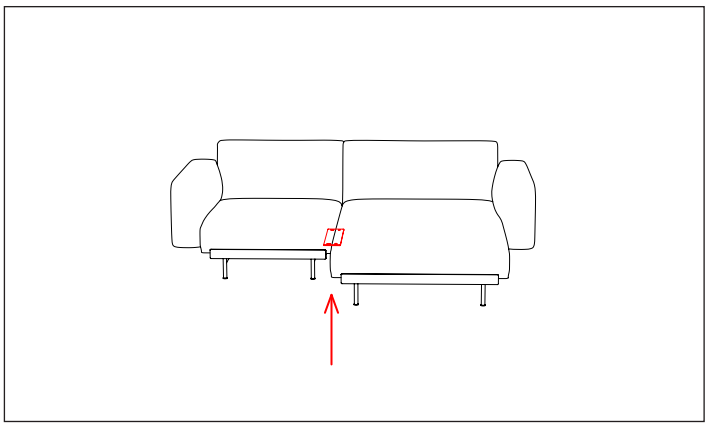

With screw 3, attach the upper linking brackets as shown. Make sure to have one side facing *up* and the other side facing *down.*

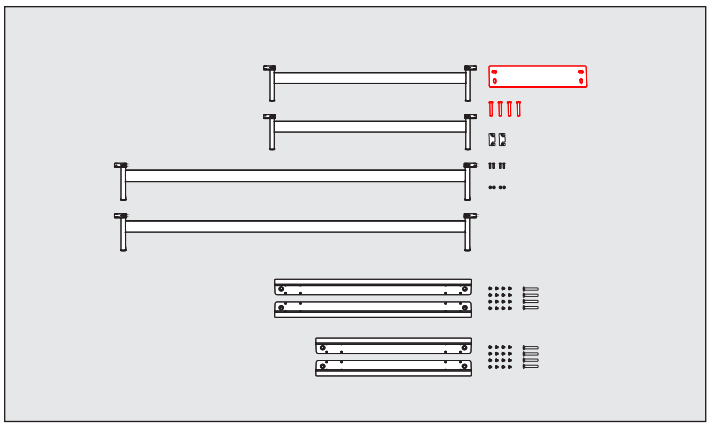

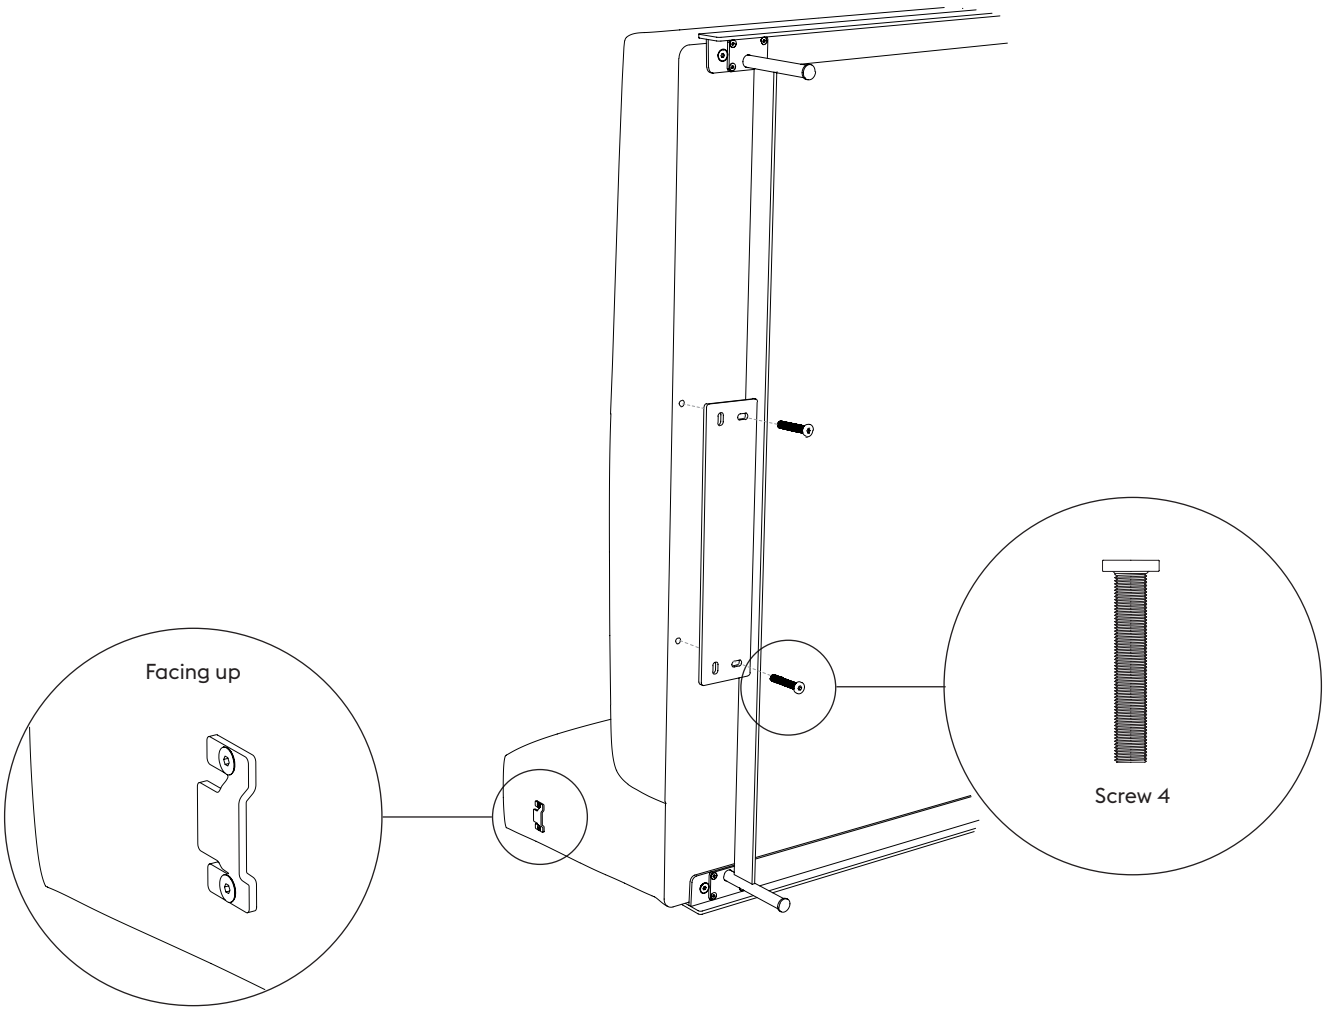

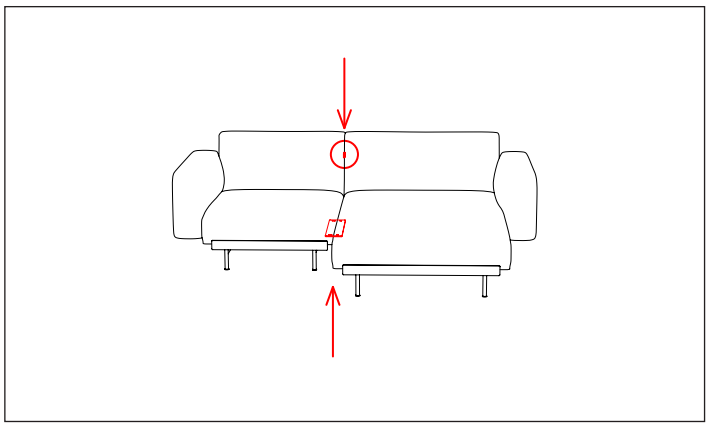

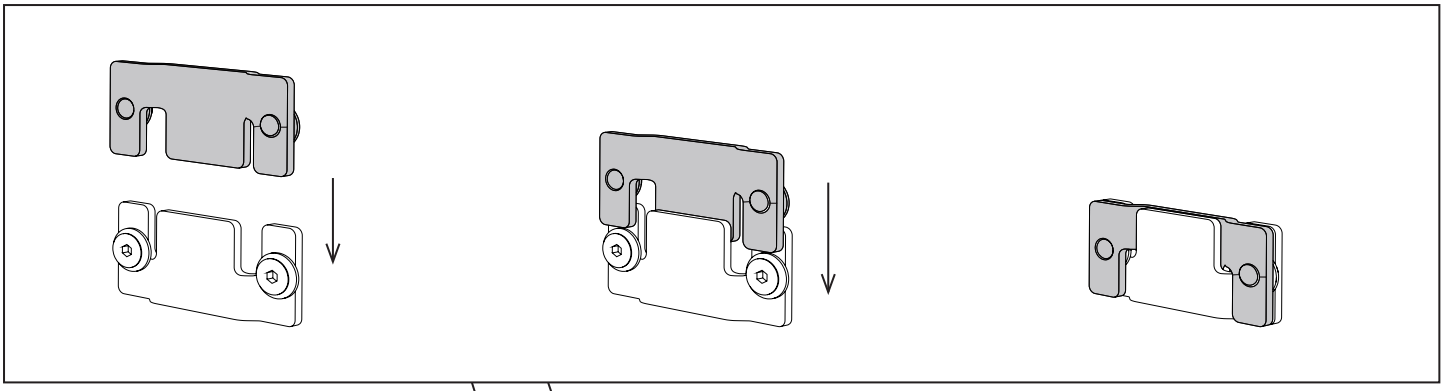

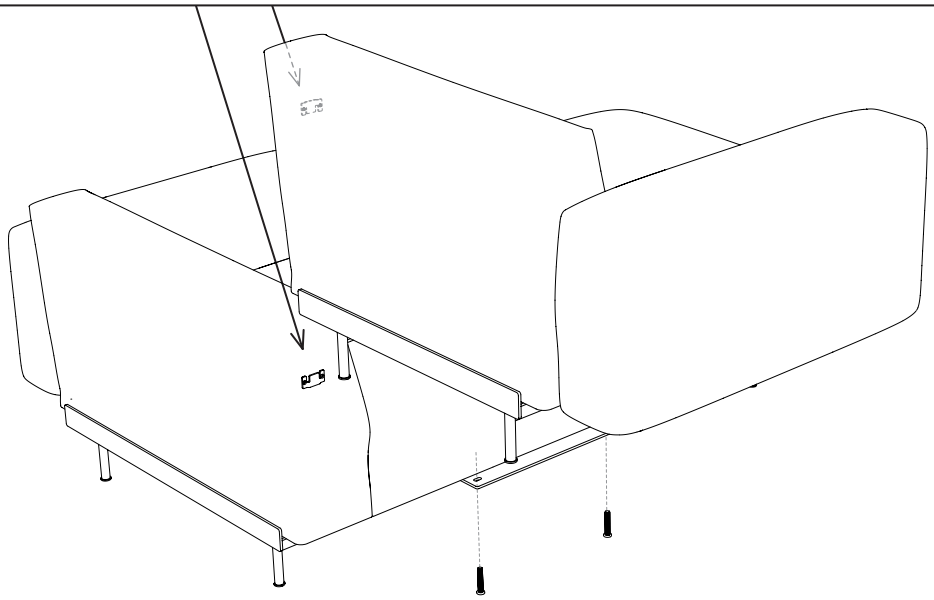

Attach the lower linking brackets to the straight section .

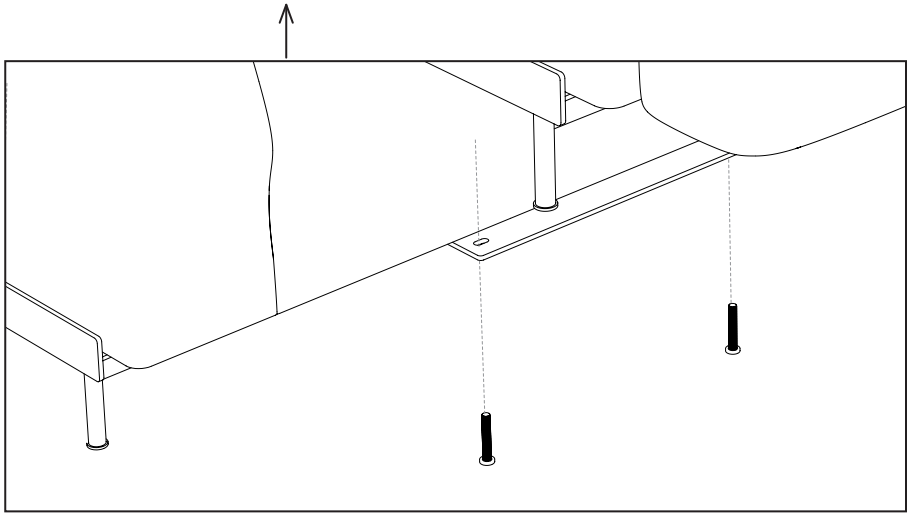

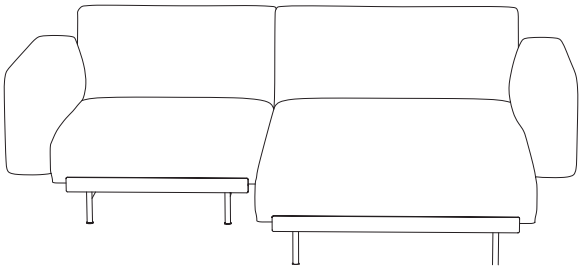

Then, link the upper brackets as shown, and secure the lower linking brackets with the remaining screws underneath.

EN To remove stains from a textile-upholstered sofa, use foam from a mild mixture of water and detergent. A leather-upholstered sofa should be treated 2-3 times a year. Keep leather products away from direct sunlight and dry air.

DK Brug skummet fra en mild blanding af vand og opvaskemiddel til at fjerne pletter på en tekstil polstret sofa. Sofaer med læder polster skal behandles 2-3 gange om året. Hold læder produkter fra direkte sollys og tør luft.

DE Zum Entfernen von Flecken auf gepolsterten Sofas verwenden Sie den Schaum aus einer Wasser-Spülmittel-Mischung. Sofas mit Lederpolstern sollten 2-3 Mal im Jahr behandelt werden. Die Lederprodukte von direkter Sonneneinstrahlung und trockener Luft fernhalten.

FR Pour retirer les tâches du textile sur les canapés, utilisez de la mousse depuis un mélan-ge d'eau douce et du détergent. Le cuir des canapés devrait être traité 2 à 3 fois par an. Veillez à ne pas exposer directement les produits en cuir à la lumière et à l'air frais.

ES Para eliminar las manchas del tapizado textil de los sofás, utilice una solución de agua ja-bo-nosa neutra. Trate el tapizado de los sofás de cuero entre 2 y 3 veces al año con el set de cuida-do para pieles incluido. No exponga los pr oductos de cuero a la luz solar directa ni al aire seco.
