Terra Portable Lamp

Designed by OEO Studio

Thank you for purchasing
the Terra Portable Lamp

Terra Portable Lamp

Post-consumer e-waste mixed with coffee shell waste

Designed by
OEO Studio

Dimensions
Ø 17.5 cm H 25 cm / Ø 6.9" H 9.8"

Weight
1 kg / 2.2 lbs

Battery capacity
10 hours when fully charged
Charging time: 6 hours

USB-C - USB-C charger cable included

Light Source
Intergrated LED, 4W LED.
Kelvin 2700K
Lumen 230lm
CRI: Ra 90
Energy class: I
Voltage: Charging voltage 5.0V –
LED voltage 2.6 - 3.2V
LED lifespan: More than 36000 hours

Dimmable
3 levels (100% - 50% - 20%)

Materials

Coffee Waste Black, Coffee Waste Light, Coffee Waste Rust Red: coffee shell waste from BKI's coffee roasting process mixed with post-consumer e-waste.

Colours

Coffee Waste Black
Coffee Waste Light
Coffee Waste Rust Red

Certifications

IP44   

Maintenance guide

Please note that this product is handcrafted and made from natural fibers, and recycled plastic - each piece is unique, and its appearance may vary from item to item.

Matek™

The Matek™ material is made from a mix of recycled fibre and plastic waste. It offers a strong, durable surface that is easy to clean and requires very little maintenance.

For daily care, it is recommended to dust the surface with a soft cloth. The surface can be cleaned with a soft cloth wrung out in a mild solution of lukewarm water and a universal cleaning detergent. Avoid using abrasive cleaning agents and harsh detergents, as these may damage the surface.

Avoid placing Matek™ furniture in direct sunlight, excessive heat, or humidity over longer periods of time, as this can affect the appearance of the material.

As Matek™ furniture is made from a blend of natural materials, each piece is unique, and its appearance may vary from item to item. A slight change in colour over the years is also to be expected. Matek™ furniture also has a distinct smell when first unpacked, but this will fade after a few days of use.

Daily use

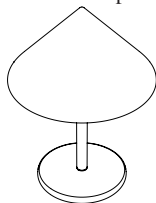

The Terra Portable Lamp is IP44 rated which means it's approved for outdoor use. The lamp should however, be stored inside.

The lamp is also approved for use in bathrooms.

Installation Guide

Components

1x Lamp

1 x USB - C

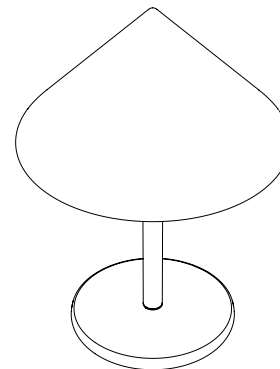

Safety precautions

The lamp is intended for indoor use. It can be taken outdoors, but must be kept and stored indoors.

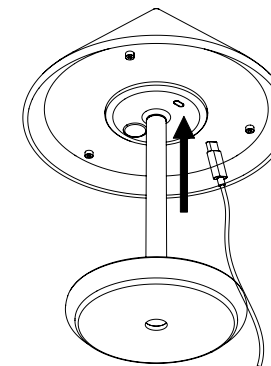

1

The lamp is delivered fully assembled.

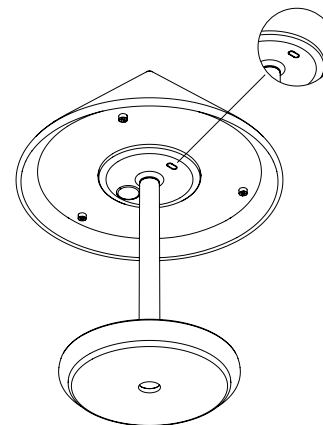

2

Before first use, the battery must be fully charged. Attach the USB-C cable to the plug under the lampshade. Connect the other end of the cable to a power supply.

3

During charging, a red LED light will light up next to the charging plug. When the lamp is fully charged, it will turn green.

4

The lamp is turned on by the button under the lampshade. It has three levels of intensity that can be managed by touching the button lightly.
