

# Terra Wall Lamp

Post-consumer e-waste mixed  
with coffee shell waste

The minimalist design of the Terra Collection was conceived by OEO Studio, a well-established design partner of Mater. The collection is our first lighting series made of Matek™ and its design is a direct result of the possibilities offered by Matek™. The production method enables the seamless integration of joints and technical elements within the lamps. The design is minimalist, precise, and timeless, while the tactility of the Matek™ material lends the series a fresh and intriguing expression.
